WORK EXPERIENCE

Senior Web Developer | SuperOps.ai

Aug 2024 – Present

- Developed and tested end-to-end enterprise UI using React.js, Redux, and TypeScript — with a strong focus on reusability, component architecture, and delivering high-quality product on time.
- Optimised browser performance and Core Web Vitals: improved LCP from ~4s to sub-1.5s, reduced JS bundle by 90% and HTML payload by 93% through targeted Webpack optimisations, lazy loading, and code splitting.
- Performed code reviews for peers, enforced reusable component standards, and collaborated with product, design, backend, and QA engineers throughout the full product lifecycle.
- Led full migration to Next.js; reduced local dev compile time by 84% via Turbopack; built AI-powered internal tooling using Vercel AI SDK, Claude API, and Amazon Bedrock.

Technologies: React.js, Redux, TypeScript, Next.js, Tailwind CSS, Webpack, Turbopack, AWS (CloudFront, S3, Lambda), Jenkins CI/CD, GraphQL, SCSS

Project Engineer | Wipro Limited

May 2022 – Sep 2023

- Built enterprise-grade UI features in a micro-frontend (MFE) architecture using React.js and modern JavaScript — with a focus on reusability, browser compatibility, and performance.
- Designed and implemented a Money Lock feature end-to-end — strong DS&A-driven problem solving with thorough edge case handling — reducing unauthorized transactions by 20% in a live banking app.
- Led a team of 4 engineers; performed code reviews, enforced clean coding standards, and collaborated with product and backend stakeholders to ship a customer validation flow.

Technologies: React.js, JavaScript (ES6+), TypeScript, REST APIs, Webpack, Micro-Frontend Architecture

SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux, Next.js, Gatsby.js, TypeScript, Tailwind CSS, HTML5, CSS3, SCSS

Build & APIs: Webpack, Turbopack, GraphQL, REST APIs, Jenkins CI/CD, Vercel AI SDK

Cloud & DevOps: AWS (CloudFront, S3, Lambda), Jenkins CI/CD, OpenNext

PROJECTS

AI Content Studio — AI-Powered Internal Tool · SuperOps.ai

- Built an AI chat tool for the marketing team to generate CMS content drafts from document uploads; orchestrated 7 streaming AI tools via Vercel AI SDK (Claude API / Amazon Bedrock) with a provider-agnostic factory pattern.
- Implemented S3-backed file storage for serverless Lambda compatibility and session-based auth; deployed on AWS via OpenNext — cutting content creation from hours of manual CMS work to a single conversation.

Technologies: Next.js, React 19, TypeScript, Vercel AI SDK, Claude AI, Amazon Bedrock, AWS S3, Lambda, OpenNext, GraphQL, Hygraph CMS, Tailwind CSS

Collaborative Whiteboard App — Personal Project

- Engineered a real-time collaborative whiteboard supporting multi-user live cursor sync, 6 drawing tools, and sticky notes via Socket.IO and Express; architected undo/redo history using the Command pattern and touch/mobile support via the Pointer Events API.

Technologies: Next.js, TypeScript, Socket.IO, Express, Zustand, Tailwind CSS, Vercel, Railway

EDUCATION

BE, Computer Science & Engineering | Rajalakshmi Institute of Technology

2018 – 2022

CGPA: 8.45/10

ACHIEVEMENTS

- Runner-up, SuperOps Hackathon (SuperHack 2023) — AWS-powered internal hackathon; recognized for outstanding contributions and creativity.
- Scaler Rockstar — Ranked 1st in competitive programming contest; consistently top learner for 10+ consecutive months.
- Solved 400+ LeetCode problems, earning the 100 Days Badge.
